- (4) **CI/CD, VCS, & registry integration**

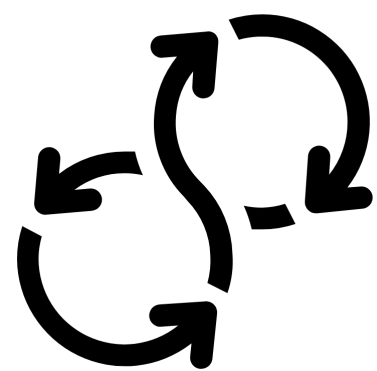

```
> tangl resolve mylib.knot

Resolving mylib.knot
> Inherits from core:1.1@abc123

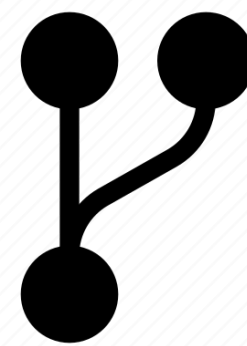

> Symbol 'foo' resolved via
  override from utils:1.3@def456

> Symbol 'bar' shadowed:
  defined in both core:1.1@abc123
  and mylib.knot

Resolution complete
```

CI/CD
Validate module
ancestry and
hash integrity

VCS
Resolve symbol
provenance
before commit

Registry
Search by hash,
metadata,
ancestry
